Registration Regulation: The C- Rule

All 200-level courses within the program [including admission/ECP/MEP requirements] which are prerequisites for other [Gina Cody School] courses must be completed with a C- or higher. A 200-level course in which a student has obtained a D+ or lower must be repeated before attempting a course for which it is a prerequisite (Undergraduate Calendar, Section 71.10.4).

Registration Regulation: The '200-level before 400-level' Rule

Students must complete [with a posted final grade] all 200-level courses required for their program [including admission/ECP/MEP requirements] before registering for any 400-level courses. (Undergraduate Calendar, Section 71.10.4).

Repetition of Courses

A student may repeat a failed course only once. A student who fails a required course twice may appeal for permission to take the course a third time. A student who has received a passing grade for a course may repeat the course for personal reasons only once. The grade corresponding to the latest attempt of the course will be used for calculating the cumulative grade point average (CGPA) (Undergraduate Calendar, section 16.2.6).

Grading System

Just passing courses required to fulfill curriculum requirements is not sufficient to qualify a student to graduate. Although a "C-" grade is designated as Satisfactory, a weighted grade point average (WPGA) of 2.00 is required for **Acceptable Standing** in the Gina Cody School of Engineering and Computer Science. A WGPA of at least 1.50 but less than 2.00 will be placed in **Conditional Standing**. Those who fail to meet the criteria for acceptable or conditional standing, or remaining in conditional standing over two consecutive assessments will be placed in **Failed Standing**. Failed students may apply for readmission through the Dean's Office - Student Academic Services (Undergraduate Calendar, section 16.1.11).
